Schedule of Activities

Internal Medicine Meeting 2027

	Thursday, April 15	Friday, April 16	Saturday, April 17
Arthrocentesis and Bursal Injections - 1.5-hour workshops Using anatomical models, learn and practice arthrocentesis and soft tissue injection techniques for the shoulder, knee, and hip. <i>View prerequisite video prior to attending this activity</i>	9:00 a.m., 11:00 a.m., 1:30 p.m., 3:30 p.m.	8:00 a.m., 10:00 a.m., 12:30 p.m., 2:30 p.m., 4:30 p.m.	8:00 a.m., 10:00 a.m.
Automated Insulin Delivery – 1.5-hour workshops In this introduction to automated insulin delivery (AID), participants will learn the basics of AID systems, including available technologies, practical benefits, and clinical considerations. Hands-on practice will build confidence in supporting and managing patients using AID in primary care.		10:30 a.m., 1:00 p.m., 3:00 p.m.,	
DD Examination of the Knee - 1.5-hour workshops Acquire a diagnosis-driven approach to confidently evaluate and manage common shoulder complaints in primary care.	9:00 a.m., 1:30 p.m.	8:00 a.m.	
DD Examination of the Shoulder - 1.5-hour workshops Acquire a diagnosis-driven approach to confidently evaluate and manage common knee complaints in primary care.	11:00 a.m.	10:00 a.m., 1:00 p.m.	
Function-Focused Gait Assessment - 1.5-hour workshops Reinforce recognition of gait impairments, obtain go-to clinical quantitative exams, and strengthen documentation for longitudinal observations. Identify the role of physical therapy to optimize patients with gait impairment.		8:00 a.m., 10:00 a.m., 1:00 p.m., 3:00 p.m.	
Hands-On Geriatrics: A Practical Skills Workshop – 1.5-hour workshops Practical strategies for addressing common challenges in the care of older patients. Participate through a rotation of experiential stations including cognitive screenings, medication reconciliation, prognosis and goals-of-care discussions.	9:00 a.m., 11:00 a.m., 1:30 p.m., 3:30 p.m.		

Incision and Drainage of Abscesses - 1-hour workshops Sharpen your procedural skills in this hands-on session focused on the evaluation and management of cutaneous abscesses in office and ambulatory care settings.	12:30 p.m., 2:00 p.m., 3:30 p.m., 5:00 p.m.	12:30 p.m., 2:00 p.m., 3:30 p.m., 5:00 p.m.	8:00 a.m., 9:30 a.m., 11:00 a.m., 12:30 p.m.
Mastering the Bedside Clinical Exam- 1.5-hour workshops Led by Society of Bedside Medicine faculty, this workshop provides practical strategies to improve your bedside clinical skills, apply a hypothesis-driven physical exam, and integrate emerging technologies into practice		12:00 p.m., 2:00 p.m., 4:00 p.m.	8:00 a.m., 10:00 a.m.
NEW! Physical Examination of the Low Back – 1-hour workshops Learn high yield physical examination techniques to incorporate into your practice as well as inpatient settings to improve diagnostic accuracy. Reduce unnecessary imaging or referrals and aid in the appropriate clinical decision-making while evaluating patients with low back pain.	10:00 a.m., 11:30 a.m., 1:30 p.m. 3:00 p.m.	8:00 a.m., 9:30 a.m.	
Skin Biopsy and Cryosurgery - 1-hour workshops Learn and practice various skin biopsy and lesion removal techniques. Gain essential dermatologic procedure skills in this hands-on session designed for office-based practice. <i>View prerequisite video prior to attending this activity</i>	9:30 a.m., 11:00 a.m., 12:30 p.m., 2:00 p.m. 3:30 p.m. 5:00 p.m.	8:00 a.m., 9:30 a.m., 11:00 a.m., 12:30 p.m., 2:00 p.m., 3:30 p.m., 5:00 p.m.	.
Toenail Removal - 1-hour workshops Learn indications for toenail procedures and practice key techniques including digital nerve block, wedge resection, and ingrown toenail removal using realistic models and surgical instruments. <i>View prerequisite video prior to attending this activity</i>		8:00 a.m., 9:30 a.m., 11:00 a.m. 1:00 p.m.	9:30 a.m., 10:30 a.m.
