

# ACP Internal Medicine Meeting

April 28-30, 2022 • Chicago, IL

## TECH HUB

### A Showcase for Your New Technology

Connect with more than 8,000 internists at ACP Internal Medicine Meeting 2022. Meeting attendees include key opinion leaders from leading medical centers around the world and front-line clinicians from a wide range of practices.

The Tech Hub is a multivendor, interactive technology demonstration area in the Exhibit Hall for a limited number of innovative companies. This focused area is where physicians come to learn how new technologies will affect clinical care and practice operations. The 2019 Tech Hub was a huge success, with more than 800 physicians visiting the participating companies.\*

\* The 2020 meeting was cancelled and the 2021 virtual meeting only had a limited Tech Hub.

### Dynamic Space for Learning and Exploration

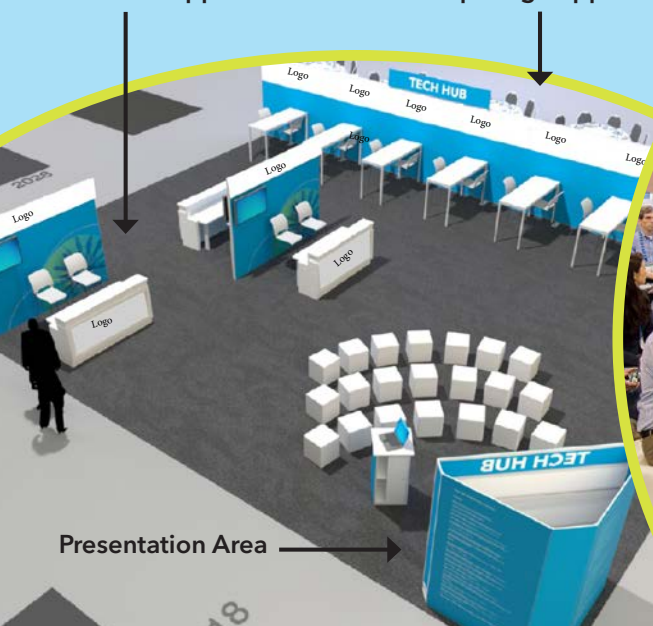

The Tech Hub provides the opportunity to engage and educate attendees on emerging technologies through demonstrations, presentations, and one-on-one discussions.

The Tech Hub also features a presentation stage, with 10-minute educational briefings offered during peak attendance periods. Premier Supporters will get two briefings time slots, and Participating Supporters get one briefing time slot.
