

TECH HUB A Showcase for your New Technology

Connect with over 7,000 internists at the Internal Medicine Meeting 2020. Meeting attendees include key opinion leaders from leading medical centers around the world and front-line clinicians from a wide range of practices.

The Tech Hub is a multi-vendor, interactive, technology demonstration area in the Exhibit Hall for a limited number of innovative companies. This focused area is where physicians come to learn how new technologies will affect clinical care and practice operations. Last year's Tech Hub had over 800 physicians visiting the participating companies.

Dynamic Space for Learning and Exploration

The Tech Hub provides the opportunity to engage and educate attendees on emerging technologies through demonstrations, presentations, and one-on-one discussions.

The Tech Hub also features a presentation stage, with 10-minute educational briefings offered during peak attendance periods. Premier Supporters will get three briefings time slots, and Participating Supporters get two briefings time slots.
